SUMMARY

Experienced Software Developer having **1 years 8 months** of specialized expertise in Angular frameworks and UI developer. Highly adeptat crafting user-centric designs and delivering efficient, scalable code that drives business success. Demonstrated ability to translate complex business requirements into innovative and effective technical solutions. Passionate about continuous learning and dedicated to staying ahead of software development trends to deliver impactful, cutting-edgeprojects.

EXPERIENCE

Ahex Technologies   Feb 2023 – Present
Angular and UI Developer   Hyderabad, Telangana

- Designed and developed intuitive, user-friendly interfaces for web applications and dashboards, leading to a significant increase in user satisfaction and engagement.
- Led the development of complex, high-performance Angular applications, leveraging advanced features such as modular architecture and lazy loading to enhance application speed and maintainability.
- Collaborated closely with backend developers to seamlessly integrate frontend components with RESTful APIs, ensuring efficient communication and data flow between frontend and backend systems.
- Implemented responsive design principles and optimized dashboards to guarantee compatibility and a consistent, high-quality user experience across diverse devices and screen sizes.
- Leveraged advanced capabilities of Google Geo Chart and Google Maps to create dynamic, interactive visualizations of geographical data, enhancing data-driven decision-making.
- Proficient in utilizing a wide range of charting tools, including Chart.js Library, PrimeNG Charts and Apache Echarts, to craft comprehensive visual representations of data such as bar graphs and line graphs.
- Developed a real-time chat application using React and WebSocket's, enabling seamless, low-latency communication between users and enhancing the application's interactivity.
- Have an experience in version control using Git, with hands-on experience managing repositories and collaborating on projects through GitHub.

SKILLS

- **UI/ UX:** HTML5, CSS, Tailwind, Bootstrap, Angular material , PrimeNG, React material UI, Ant Design,
- **Core Languages:** JavaScript, Java (basics)
- **Js frameworks & libraries:** Angular , typescript, React Js
- **Angular Versions:** Angular 14, Angular 15, Angular 16
- **Others:** Chart Js, Apache Charts, d3 (Basics), RxJs (Basics), Git, Github, Figma & Power point.

EDUCATION

- **Aurora's Engineering College - Hyderabad**
  B Tech – Electronics and Communication Engineering (2018 – 2022) with **7.12 CGPA**
- **Sri Vani Junior College - Jagtial**
  Intermediate – MPC (2016 – 2018) with **98%**
- **Sri Vijaya Sai Central High School - Metpally**
  SSC (2015 – 2016) with **9.3 CGPA**

PROJECTS

P1 – Ticketing System @ Ahex Technologies

- The Ticketing platform offers users the ability to log in and access a comprehensive catalog of available courses, featuring intuitive search and filter functionalities. Additionally, users have the option to seamlessly purchase products.
- Authentication and authorization mechanisms have been implemented to ensure secure access to the Ticketing platform.
- Various pages, including login, dashboard, courses, course details, and library, have been meticulously crafted using Figma, with corresponding routes established to facilitate seamless navigation within the Ticketing platform.
- Provide customer support by raising a ticket on the ticketing platform.
- Ticketing System application is optimized for mobile and tablet devices, ensuring a user-friendly and responsive experience.

P2 – ATC Railtel (Angular UI developer) @ Ahex Technologies

- Contributed to the development of ATC Railtel platform focusingon enhancing UI design with log in auth guards follows booking tickets for domestic, International flight booking.
- UI Development for 90+ Screens: Designed and developed over 90 screens, showcasing comprehensive experience in large-scale UI projects for flight booking applications..
- Comprehensive Booking Flow Design: Created interfaces for various booking stages, including flight types, traveler details, seat and meal selection, payment processing, booking management, success pages, and profile screens.
- Attention to Detail in UX: Carefully designed user flows and interactions, optimizing the application for ease of use and a streamlined booking process. Handled CRUD operations within the events section and integrated notifications.
- Performance Optimization And Reusability: Enhanced the application's performance with fast loading times and smooth interactions, code reusability providing a better user experience.

P3 - Thapala @ Ahex Technologies

- UI Development and Theming: Designed and themed the application with real-time background themes and images.
- Mailing and Note-Taking UI: Developed user-friendly interfaces for mailing and note-taking features.
- Secure Login and Routing: Implemented secure login and routing for smooth navigation..
- Data Privacy and Storage: Designed secure storage for files, images, and mails, focusing on privacy. application is optimized for mobile and tablet devices, ensuring a user-friendly and responsive experience.

P4 – Engageto (Using React Crafting conversations) @ Ahex Technologies

- Engageto is a crafing conversation platform and user friendly responsive , Template Management in Library for creating and organizing templates within a centralized library for easy access and management .
- Permissions and Account Management: Implemented features to manage user permissions, ensuring proper access control for accounts and templates.
- Client and Tag Management: Designed interfaces for managing clients and tags, enhancing the application's organizational capabilities.
- Wallet and Integration Features: Developed UI components for wallet functionality and seamless integration with other services.
- Campaigns, Contacts, and Automation: Designed features for managing campaigns, contacts, and automation workflows, improving communication efficiency.
